

What makes WorkZone different from other solutions?

It's simple. Simple to set up, simple to learn and simple to use...with all the power you need.

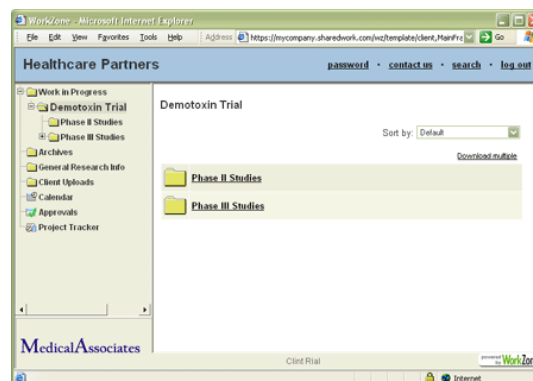

WorkZone HC is a powerful, easy-to-use collaboration extranet designed specifically to meet the security needs of the health care industry.

Collaboration among health care professionals, particularly in circumstances that require the sharing of confidential patient information, requires that the extranet offer enhanced security features. Addressing this need, **WorkZone HC** offers:

- Secure web server with 128bit SSL encryption
- Server monitoring
- Secure IDs and passwords
- Defined authority levels
- Viewing permission controls
- Session time out after 30 minutes
- The ability to disable user-specific cookies,
- The ability of users to change their own password,
- The ability to create strong passwords.
- Complete, un-editable activity log for security audits

WorkZone HC allows you to organize, share and archive all of your work in one place, accessible from a link on your website. It facilitates faster and better-informed decisions when working with healthcare providers, clients, co-workers and partners. And there is no software to install or maintain.

It brings together all related documents puts them within a point and click of everyone on the team. **WorkZone HC** speeds review and approval by providing instant client feedback and a permanent record of all comments and activity.

What makes WorkZone HC different?

Other extranet solutions are crammed full of features that rarely get used and get in the way of effective collaboration. At WorkZone, we realize that simplicity is a virtue.

WorkZone's elegantly simple, yet powerful design makes online collaboration faster and easier. It can be used effectively by computer novices and experts alike, and requires very little training. You'll be up and running from day one.

All documents, regardless of size, can be viewed by everyone, regardless of location, from any internet connection, without concern for restrictions and firewalls.

It organizes everything you share in a simple file and folder system that assures nothing is lost, and everything is accessible quickly.

WorkZone is provided as a hosted solution, using our technology and software. There's no hardware or software to install, and WorkZone requires no IT support. It works across any platform - PC or Mac. All you need is access to the Internet. WorkZone can be accessed from anywhere 24 hours a day.

WorkZone was created to help non-technical professionals use powerful technology to collaborate.
